515mm (20.3")
600mm (23.6")

The height of each model excludes spikes.

Weight Capacity 25kg

40mm (1.6")

ATACAMA HD-S & HD-L Floor Spike Shoes

Atacama High Density spike shoes are made of a copper /zinc alloy construction and features an indentation on the upper surface to locate the spike and on its lower surface, a non slip E.P.D.M. elastomer membrane designed to protect delicate floor coverings and aid sound dampening. Each spike shoe has a diameter of 20mm (HD-S) and 25mm (HD-L), making the HD-S best suited to small and medium sized speaker stands, HD-L suitable for most large speaker stands and HiFi rack applications with an overall maximum weight spread over all four shoes of 70kg (HD-S), 125kg (HD-L). They are available in a choice of two colours, Satin Black or Nickel Silver.

ATABITES SMD-Z 7.5HD

PLEASE NOTE- Atabites are supplied by weight, not volume. (7.5 kg tubs). Some settling of contents may occur in transit. Here is the maximum approximate weight of Atabites that can be used in each pair of speaker stands:-

Moseco 5=7kg Moseco 6=10.4kg Moseco 7=12.2kg Moseco 10=15kg

Nexus 6i=8.2kg Nexus 7i=12.2kg Nexus10i=21kg SL200=7.2kg SL300=15.2kg SL400=24kg SL500=32.8kg

SL600=41.6kg SL700=48.8kg SL1000=68kg

HMS1.1 & Moseco XL 500mm=34kg

HMS1.1 & Moseco XL 600mm=41.8kg

HMS1.1 700mm=55.4kg HMS2.1=84kg.

Sonic results will depend on speaker stand positioning, type of speaker, room size, type of electronics and cabling, listening position and personal taste. However, as a guide, filling the stands approximately two thirds full generally gives the best results.
