

Best Sound, Home Theater Award at What HiFi India 2020

Posted on April 01, 2020

Congratulations to Legacy Audio distributor, Audio Excellence India, for an exemplary demonstration at the What Hi Fi Show 2020 at the St. Regis in Mumbai, India.

Awarded Best Sound of the Show, the home theater demonstration included Legacy Velocity Satellite mains, Phantom HD surrounds, Xtreme XD and Foundation subwoofers paired with Parasound amplification, Storm Audio processor and Sim2 Nero 4 projector.

"...they really outdid themselves with sound and picture that was on par with the best in the world. The centrepiece of the room was the huge 21:9 Screen Research ClearPix screen that concealed an equally impressive array of Legacy Audio Velocity active speakers. The Legacy Audio Foundation and Xtreme XD were both integrated beautifully into the sonic tapestry. The surround channels were a combination of Legacy Audio Phantom HD and Definitive Technology AW6500 satellite speakers."

"Clips from Lucy and Bohemian Rhapsody were goosebump-inducing good! The cinematic nature of the picture and the perfectly calibrated audio meant this room deserved to win our 'Best Sound of the Show - Home Theatre.'" - What HiFi India, April 2020 issue

Showgoers were treated to clips from *A Star is Born* and a dedicated HDR demo.
